

FAVOURITE LIST

Magento Extension User Guide

Official extension page: **Favourite List**

Favourite List

Installation

1. Login into the backend and go to System >> Cache Management >> Enable All Cache Types.
2. Upload files from “Netgo_Favouritelist -1.0.0” folder to the root folder of your Magento installation:
3. Go to System >> Cache Management in Magento backend, and click the “Flush Cache Storage” button.
4. Please log out from the backend and log in again for Magento to refresh permissions.

Extension Settings

- 1) Go to System -> Configuration -> NETGO FAVOURITE LIST -> Favourite list
- 2) Enable extension

The screenshot shows the Magento Admin Panel interface. At the top, there's a header with the Magento logo, 'Admin Panel', a search bar, and user information. Below the header is a navigation menu with tabs: Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System (highlighted). A warning message is displayed below the menu. The main content area is divided into two columns. The left column contains a 'Configuration' sidebar with a 'NETGO FAVOURITE LIST' section. A blue callout bubble points to this section with the text 'click here'. The right column shows the 'Favourite List' configuration page. At the top of this page is a green success message: 'The configuration has been saved.' Below this is a 'Settings Favourite List' table. A blue callout bubble points to the 'Enable' dropdown menu in the table, which is currently set to 'Yes'. The text 'Enable module from here' is written inside this bubble. A 'Save Config' button is located at the top right of the configuration area.

After enable the extension this link will be visible on product detail page

2. If you want to show favourite list on the product list page, put the following code in this phtml file:

```
-app
  -design
    -frontend
      -YOURTHEME
        -default
          -template
            -catalog
              -product
                -list.phtml
```

```
<?php if (Mage::helper('favouritelist')->isAllow()) : ?>
    <a title="<?php echo $this->__('Add to FavouriteList') ?>" href="<?php echo
    Mage::helper('favouritelist')->getUrl($_product) ?>" class="link-favourite">
    <?php echo $this->__('Add to Favourite List') ?>
    </a>
<?php endif; ?>
```
